PROFILE

Multimedia designer based in Dubai. I make social media designs, logos and brand identities, motion graphics and video, Bangla and English typography, interfaces and 3D work. My roots are in Bangla type design, and I bring the same attention to detail to every project, from the first sketch to the final export.

EXPERIENCE

|                              |            |
|------------------------------|------------|
